NOTE OUR LOW PRICES ON ALFALFA SEED

Seed Corn

Seed Oats

Situation Serious

Supplies Very Short - - Prices Working Higher

We have been sparing no efforts in obtaining for our many Dealer friends and their Patrons the very Best Qualities of Seed Stock we can find.

The Seed Corn we offer was produced in the Northern Part of the "Corn Belt". We consider it well adapted for planting in your "Trade Territory". Our own buyers selected this Corn in districts where conditions were most favorable for full maturity before frost. It was thoroly dried out before those intense freezes of January and February. OUR GERMINATION TESTS AVERAGE 92% which you know is extra high for Corn this season.

The Seed Corn we now offer is Hand Picked, machine Tipped and Butted, shelled and Double Graded. It's quality is far above the average commercial seed corn put out by most seed jobbers.

WE OFFER NOW SUBJECT TO PROMPT ORDERING AND STOCK BEING UNSOLD:
